

AHMAD IQBAL

Frontend Developer | Web Development

✉ ahmad70iqbal@gmail.com | 🔗 <https://www.linkedin.com/in/mian-ahmad-88966431b> | 💻 <https://github.com/MianMuhammadAhmadIqbal>

CAREER OBJECTIVE

Motivated and self-taught Frontend Developer with strong foundations in HTML5, CSS3, JavaScript (ES6+), and React.js. Passionate about building responsive, dynamic, and user-friendly web applications with clean state management. Quick learner with a strong problem-solving mindset, attention to technical detail, and enthusiasm for mastering modern frameworks. Available for remote and on-site internship opportunities to contribute to real-world development teams.

TECHNICAL SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- Tailwind CSS Engine
- Responsive UI Architectures
- React.js Framework

Tools & Technologies

- Git & GitHub Enterprise
- Visual Studio Code
- Chrome Developer Tools
- GitHub Pages Hosting

Soft Skills

- Analytical Problem Solving
- High-Velocity Adaptability
- Structured Communication
- Cross-Team Collaboration
- Fast Learning

PROJECTS

◆ Personal Portfolio Website | *React, Tailwind CSS, Framer Motion*

- Developed a responsive developer portfolio featuring premium gradient styling and smooth scroll-triggered entrance animations.
- Optimized layout structure for seamless cross-device performance using mobile-first utility breakpoints.

◆ Task Management App | *JavaScript (ES6+), LocalStorage, HTML5/CSS3*

- Built a productivity application featuring full CRUD actions (create, edit, toggle, delete) and real-time state persistence.
- Implemented client-side LocalStorage integration to securely preserve all user data across browser refreshes.

◆ GitHub Finder Application | *JavaScript (ES6+), Tailwind CSS, GitHub API*

- Engineered a search application that interfaces with the third-party GitHub REST API to fetch live user metrics and repositories.
- Implemented structured asynchronous data fetching (async/await) paired with smooth client-side error handling.

◆ AI Interview Preparation Application | *React, Tailwind CSS, Vite, Claude AI API*

- An AI-powered interview preparation application that generates real interview questions based on selected topic and difficulty level. Uses Claude AI to evaluate answers and provide detailed feedback with scores..

EDUCATION

Bachelor of Science in Computer Science

Currently Enrolled
Expected Graduation: 2028

CERTIFICATIONS

- Web Development Training – [Promoteez International IT Training Institut,2024]

LANGUAGES&STRENGTHS

Languages

- English – Intermediate (B1/B2)
- Urdu – Native / Full Proficiency

Key Strengths

- Self-Motivated & Independent Learner
- Attention to Detail
- Problem-Solving Mindset
- Open to International Opportunities
