CAREER OBJECTIVE

Motivated and self-taught Frontend Developer with strong foundations in HTML5, CSS3, JavaScript (ES6+), and React.js. Passionate about building responsive, dynamic, and user-friendly web applications with clean state management. Quick learner with a strong problem-solving mindset, attention to technical detail, and enthusiasm for mastering modern frameworks. Available for remote and on-site internship opportunities to contribute to real-world development teams.

TECHNICAL SKILLS

Frontend Dev:	HTML5, CSS3, JavaScript (ES6+), Tailwind CSS Engine, Responsive UI Architectures, React.js Framework
Tools & Tech:	Git, GitHub, Visual Studio Code, Chrome Developer Tools, GitHub Pages Hosting, Vite, Vercel
Soft Skills:	Analytical Problem Solving, High-Velocity Adaptability, Structured Communication, Cross-Team Collaboration, Fast Learning

TECHNICAL PROJECTS

AI Interview Preparation Application

React, Tailwind CSS, Vite, Claude AI API

- Engineered an AI-powered interview preparation application that generates real interview questions based on selected topic and difficulty level.
- Uses Claude AI API to evaluate answers and provide detailed feedback with structured scoring metrics.

GitHub Finder Application

JavaScript (ES6+), Tailwind CSS, GitHub API

- Engineered a search application that interfaces with the third-party GitHub REST API to fetch live user metrics and repositories.
- Implements structured asynchronous data fetching (async/await) paired with smooth client-side error handling.

Task Management App

JavaScript (ES6+), LocalStorage, HTML5/CSS3

- Built a productivity application featuring full CRUD actions (create, edit, toggle, delete) and real-time state persistence.
- Implemented client-side LocalStorage integration to securely preserve all user data across browser refreshes.

Personal Portfolio Website

React, Tailwind CSS, Framer Motion

- Developed a responsive developer portfolio featuring premium gradient styling and smooth scroll-triggered entrance animations.
- Optimized layout structure for seamless cross-device performance using mobile-first utility breakpoints.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science (BSCS)

Expected Graduation: 2028

Khwaja Fareed University of Engineering & Information Technology (KFUEIT) • Currently Enrolled

Web Development Training — Promoteez International IT Training Institute

2024
